

Hello! I joined “Safe At Home” (www.safeathome-online.com) and thought you’d want to do the same. It is dedicated to protecting our families and pets in and around the house. And, when I joined, “Safe At Home” gave me a free report showing how to qualify for insurance safety discounts with my insurance carrier. Your carrier may do the same, giving you an insurance premium discount that may be greater than the cost of membership – an immediate benefit!

Go to www.safeathome-online.com and get all the details. When you join, please include my member number as your referral. For each new member that joins, I get credited with one month toward my next year’s membership through the member affiliate program. After you join, you can participate in this program, too.

My member/referral number is: [*your member #*]

Thanks. This growing community has so much to offer in home safety. It only takes a couple minutes to check out the website with lasting benefits – www.safeathome-online.com.
